Release Notes - Release 11.2.0.1.0 Monday, June 30, 2010

Coffee and Comic Book Cafe is a local Seattle comic book store. It's also a one-stop shop for all of your Star Wars memorabilia needs. On their blog they have a section dedicated to their "New Star Wars Attraction". That's where they talk about all of the cool new stuff that they have received in the mail. That includes a novelization of The Force Unleashed by Chuck Wendig, new novels featuring Boba Fett, new novels featuring the Clone Wars characters, Boba Fett action figures, and Clone Wars figures. But the only Star Wars novelization that really interests me is the Star Wars: The Clone Wars Adventures novelization. It is a novelization of the new animation series Star Wars: The Clone Wars and not the previous series. This is important because, as we have seen on previous blog entries, all of the Star Wars movies for the past few years have been novelizations of the previous animated series. This new book about the new series is one of the only books, besides the still-to-be-released Episode III novelization, about the next Star Wars series. The Clone Wars Adventures novelization is written by New York Times best-selling author Chuck Wendig. He has a number of novellas in the Star Wars Expanded Universe, including the Jedi Apprentice Series and the Dark Nest series. He also wrote the novella The Black Visions which was released as a TPB together with the first trade paperback issue of Episode III. All the comics, novels and other Star Wars material on this site are copyrighted and are the property of LucasArts, II and Viacom, New Regency, Paramount Pictures, Sony Pictures, Lucasfilm, Disney,

Marvel, 20th Century Fox, and all other applicable studios. No copyright infringement is intended. The Twilight Zone and Twilight Zone Fan are trademarks of Stephen King. Copyright 1999 - 2015 L. King Privacy Statement Information provided by visitors to this site will be treated with respect and will not be sold or shared with anybody. If you feel that your privacy has been violated, please contact me at the email address listed above. Prolongation of pro-collagen mRNA half-life by the anaphase-promoting complex. Transcription of procollagen genes involves cooperation between RNA polymerase I and II, a process that requires binding
